## HERITAGE

Born from a love of camping and outdoor living, coupled with a desire to always create and innovate, Campingaz® products are instinctive and inspired, simple yet clever solutions based on over 60 years of expertise.

Trusted by generations of campers, a trust that has been earned by creating safe, reliable products that never fail to deliver, time and time again.

## It's the simple things that count...

Often simple thoughts spark big ideas; in 1949, when a young man embarked on a camping holiday with his family, he could never have anticipated that his thoughts that day would change the way in which people camped for generations to come.

Frustrated by the alternatives available, he set about creating a revolutionary refillable cylinder; compact and convenient, economic and easy to use. The Campingaz® brand was born...and life outdoors was liberated.

From the beach to the campsite, from the garden to the hills, Campingaz® innovations have changed the blueprint for outdoor living and adventure, each decade introducing revolutionary innovations.

**1980 - Valve Cartridges**

**1990 - Barbecues**

**2008 - Garden Torch**

**2012 - Bistro 300**

**The flavour of food cooked outdoors. The warm glow of evenings by lantern light. These are the moments, the memories and the feelings that inspire us at Campingaz, and have done for the past 60 years.**

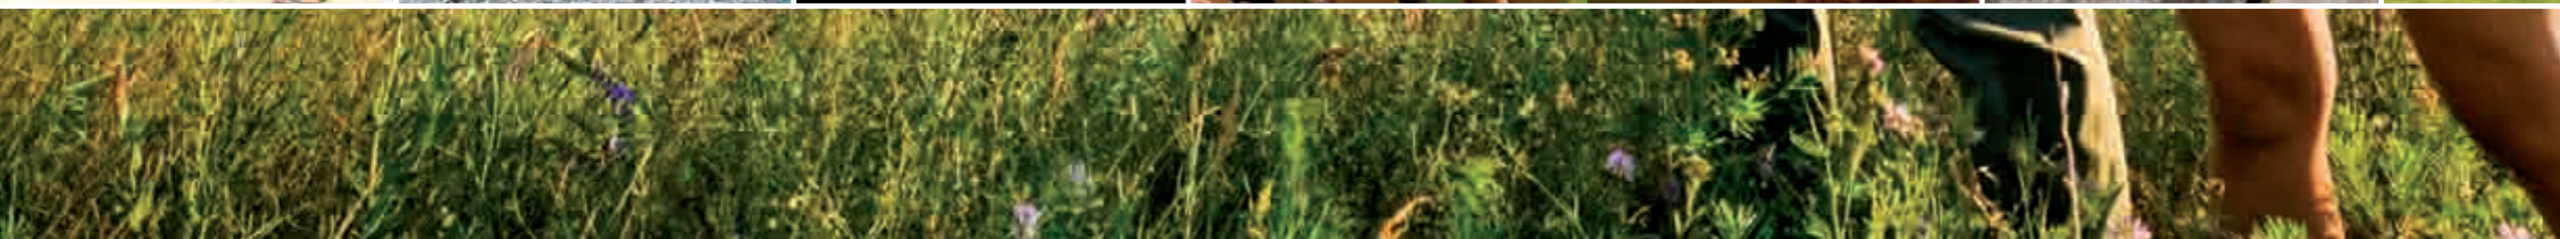

## The simple pleasures are the best.

In 1949 Campingaz was born out of an inspirational idea on a camping trip. Since then we've enhanced people's experience of the outdoors through exceptionally practical, convenient and stylish products. We continue to innovate and inspire with versatile products that suit the back garden, the beach, the campsite or wherever our adventurous spirit takes us. All our products are designed with one aim in mind: to make outdoor freedom accessible to everyone.

Today we still believe in that combination of practicality and inspiration – giving people the tools to enjoy the outdoor life, whether in their own back garden, on a beach or camping far from home. We continue to innovate because we know there are always smarter ways to do things, but we retain the classic solutions people know and love.

## How the RBS system works

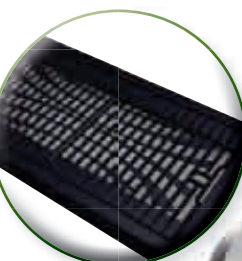

The Radiant Burner System places the burners to the side rather than below. It's a simple but radical idea that means the juices and grease from cooking don't land on the flames.

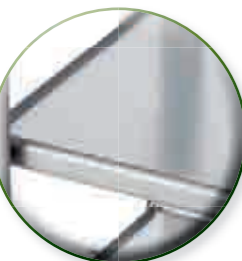

This allows grilling, spit-roasting or oven cooking with the lid closed. Better control and fast cooking. The heat reflector ensures consistent heat within the cooking area.

## El Prado™ range

The synonym for modern grilling. El Prado™ uses the patented and award-winning (French Eco Trophées Award 2010) “Low Flame” cooking system: it consumes 50% less energy than traditional gas barbecues - without compromising cooking performance or cooking result. A benefit for the environment which also saves you money each time you enjoy your barbecue. Moreover, less smoke and flare-ups allow for an even healthier preparation of food.

## How the El Prado™ burner system works

- The flames are short : it allows to have the burner close to the grate : 25mm
- Because the burners are close to the grate we protect them with plain surfaces integrated into the grate
- The maximum distance between flames and the grate is 70mm in order to cook with a perfect temperature distribution on the grate

- The flames are vertically coming directly from the top of the burner to the bottom of the grate: it allows minimal loss of energy
- No vents into the firebox, thereby the burners are protected against the wind - no reduction of the control and the power of the El Prado™

# Garden

**Extend those warm lazy days into entertaining evenings, with our efficient and economical Garden range.**

The Campingaz® brand offers a wide range of products for the garden that fresco. The Garden Torch quickly eradicates weeds, keeping the garden looking good. Furniture covers ensure your furniture continues to look great and is ready to use in an instant and the range even includes Patio Heaters, so you can spend more time relaxing outdoors.

## Garden furniture covers

Wooden garden furniture will grow mould and start to rot if left outside unprotected. Our PVC covers are resistant to sun, heat, rain and cold, and are kitted out with eyelets and ropes to wrap your garden furniture up neatly.

## Premium covers

These covers don't just keep the rain out, they force condensation out too, using our waterproof, breathable technology. Combine that with an exclusive storage folding system, and you've got a compact, unobtrusive and highly effective range of covers.

# Food preparation

**Whether you're on the side of a mountain or out on a family trip, we've got everything you need for a meal on the go.**

Make more out of a meal with a wide range of stoves and our new innovation, the Gourmet Flam' to suit every requirement. All grills and stoves are supported by our globally available range of gas cartridges and cylinders. Whichever you choose, you can be sure that they're reliable, safe and practical.

## Gourmet Flam'

Cooking has turned from a daily routine to lifestyle entertainment. Fancy dishes and exotic meals are prepared fresh, daily. The Campingaz® brand brings you the best accessory to create perfect desserts and scallop starters or your main dish. From a perfect potato gratin to a sweet crème brulee. The Gourmet Flam' will be your ideal kitchen helper.

### Gourmet Flam'

Multipurpose blowlamp with additional convenience of a piezo ignition. The perfect kitchen aid for making delicious desserts.

## Choose the right stove...

**Make sure you choose the right stove for your needs.**

**1. Cartridge or cylinder?** Cylinder stoves are designed to run for much longer and give greater power for intensive use. Refillable cylinders are heavy and not very practical if you're going hiking. For portability a cartridge stove is the way to go !

**2. Single or multi-burner?** A single-burner stove is lighter and more compact but enables you to only cook one thing at a time. Two burner stoves gives you more options for your cooking but can be heavier.

**3. Burner and grill?** Ask yourself what kind of cooking you would like to do. If you intend on mainly making a cup of tea or heating baked beans, one burner may be enough. If you want to cook a full breakfast, consider a burner and grill combination.

### Valve cartridges

 Featuring a self-sealing valve, they can be disconnected and reconnected even when not empty!

### Pierceable cartridges

 Single use cartridge with the exclusive Clip & Go™ system makes cartridge connection and replacement very easy and user friendly.

See page 81 for the full range of Campingaz® cylinders and cartridges.

\* References for empty cylinder. Please contact local distributor for further information on gas cylinders.

## Valve Cartridges

Our range of valve cartridges have a high security self-sealing valve giving them all the advantages of being resealable – so they can be disconnected and reconnected even when they're not empty. Ideal for periodic, moderate use.

**Quality Management System Approved by LRQA**

Over the years, Campinggaz® has demonstrated its commitment to customer satisfaction by focusing on the quality and safety of its products. Application des Gaz (Saint Genis Laval, France) and Camping Gaz Italia (Centenaro di Lonato, Italia) have both been awarded Iso 9001 certificates in recognition of their quality assurance programmes which are applied to every stage of product design, manufacturing, quality control, development and delivery.

The Quality Management System is applicable to design, inter-company purchasing or sourcing, industrialization, manufacturing, storage and distribution of gas appliances and other outdoor leisure and camping products, barbecue and accessories. LPG cartridges, gas cylinders, DIY appliances and accessories under the Campinggaz® brand name.

Due to our policy of continuous improvement, Application des Gaz reserves the right to alter or change the specifications of models shown. Some articles may vary in availability and specification from country to country. Please check with your local Campinggaz® organization for further details. All pictures are non-contractual.
